

Have you heard?

CodeRVA will initially focus on increasing the number of computer science professionals in the region before being replicated across all 16 Career and Technical Education clusters.

During the first two years, students will complete a majority of the courses required for a high school diploma through facilitated online coursework that will be supplemented by face to face instruction with industry experts. During the last two years, partnerships with community colleges and employers will allow students to participate in paid work experience, and to graduate high school with an associate's degree, industry certification(s) and guaranteed employment.

# CodeRVA

## *WHAT IS CodeRVA?*

It's a new model of personalized, online, and project-based schooling at the high school level with early college enrollment, and a unique apprenticeship program that results in up to 400 hours of paid work experience prior to graduation.

## *HOW WILL STUDENTS BE CHOSEN?*

All students are encouraged to apply. There are no admissions criteris or academic prerequisites.

This new regional school will be designed to serve a diverse, lottery-selected student population and will embody design principles of personalization, adult world connections, and career

## *WHICH DISTRICTS WILL BE INVOLVED?*

Charles City, Chesterfield, Colonial Heights, Dinwiddie, Goochland, Hanover, Henrico, Hopewell, New Kent, Petersburg, Powhatan, Richmond City, and Sussex.

Is CodeRVA for you?
